REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

650005.94380

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 6,014,828, granted January 18, 2000, and for which a reissue patent is sought on the invention entitled _____

COMBINATION ADVERTISING AND WARNING SIGN FOR SHELIVING

the specification of which

☒ is attached hereto.

☐ was filed on _____ as reissue application number _____ / _____
and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

We believe original Letters Patent No. 6,014,828 to be partially inoperative by reason of claiming less than we had a right to claim, and by failing to set forth claims to the following invention:

A hazard warning sign for attachment to a shelf, the sign comprising: a warning sign which can be placed in a revealed state in which it is visible to reveal a warning or alternatively can be placed in a concealed state in which the warning is not readily visible; at least one surface which displays indicia at least in the concealed state of the warning sign; and a shelf mounting bracket which can attach to the shelf to support the warning sign and the one surface.

The invention claimed in the original Letters Patent was unnecessarily limited in terms of orientation of at least one element and to a particular shelf mounting mechanism.
